India Stakeholders Workshop

India-UK Tackling AMR in the Environment from Anti-microbial Manufacturing Waste (AMR-India)

IIT-Bombay, Mumbai

4th - 5th December 2023

This India-UK programme seeks to investigate the potential contribution of antimicrobial manufacturing waste to environmental antimicrobial resistance (AMR). The programme is funded by Natural Environment Research Council (NERC) in UK and the Department of Biotechnology (DBT) in India. The programme consists of five collaborative research projects working across <u>eleven institutions in the UK</u> and <u>seventeen institutions in India</u>. Our India stakeholders' workshop seeks to further engage with India stakeholders from all backgrounds, as well as to highlight our UK/India-AMR programme's objectives.

AGENDA

Facilitators: Profs Helen Lambert, Soumyo Mukherji and John Connolly

Location: ESED Building, 2nd Floor, Seminar Room, IIT Bombay

Online:

Monday 4th December

09:00 - 09:30 Registration

09:30 – 09:45 Welcome and Workshop orientation Prof. Mukherji & Prof Lambert
